

Benefits

Retain Customers & Increase Sales

Generate more sales by retaining satisfied customers.

Reduce Processing Costs

Generate all necessary documents and retrieve shipment tracking numbers automatically with little effort.

Reduce Costly Shipping Errors

Automate processes. The fewer manual steps in your procedures, the less opportunity for costly shipping errors.

Improve Customer Satisfaction

Generate shipping documentation such as shipping labels, packing slips, invoices, and, if using EDI, create and send automated shipping notifications (ASN).

Real-Time Integration to UPS and Fedex

Retrieve automatically tracking information and link back to the order, making shipment status information easily accessible and understandable. Tracking numbers may be included on all shipping documentation.

Order Shipment & Fulfillment

If you think that fulfillment, customer care and supply chain execution are not important, think again! Fulfillment matters.

- 98% of dissatisfied customers will never complain they will just leave.
- In the next six years, 80% of your customers will leave you., 65% due to something you did.
- The longer a customer stays with you, the more profit you make.
- A 5% retention rate will increase profits from 25%-55%.

Create and manage your orders, shipments and print address labels, shipping labels, packing slips, advance shipping notifications, invoices, and commercial invoices without, or very little human intervention. Ask us about adding Order Shipment and Fulfillment to your eWholesale suite of products.

Features

Automatically integrates with carrier software

Order Shipment and Fulfillment integrates seamlessly with major carrier shipping software, sharing and retrieving relevant shipping information.

Avoids data entry errors

Automating data entry processes with the addition of eWholesale's EDI option, and integrating with the carrier's software allows for accurate printing of bar-coded labels, shipping documentation, recording of tracking numbers and calculation of freight costs.

Easy to setup and implement

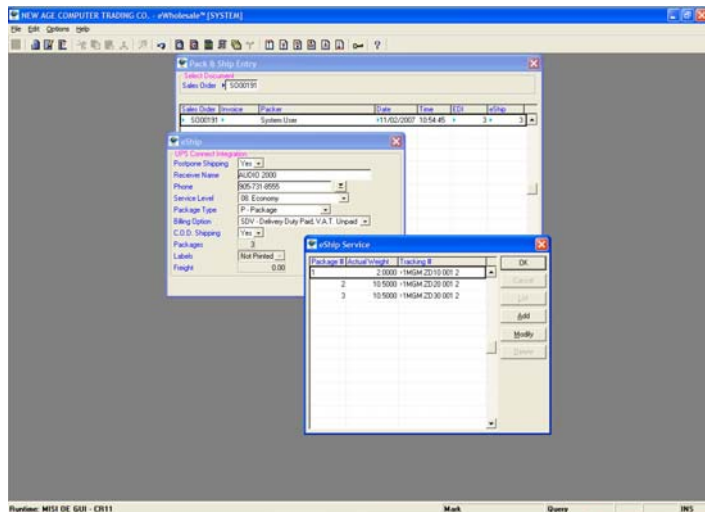

Order Shipment and Fulfillment uses information from the Customer File, Invoice File, and eShip Defaults Setups, as well as your carriers' setups.

Quick look-ups and drill-downs

Quick look-ups and drill-downs allow you to easily keep track of shipments. Clicking on the tracking number takes you straight to the carrier's web site for detailed description of the shipping route.

Fully Integrated

Order Shipment and Fulfillment is fully integrated in a seamless single database with eWholesale, and works closely with your carrier's software allowing your orders to be shipped and shipments tracked from within eWholesale™.
